Horwith Trucks Inc (US EPA ID# - PAD146714878) was used to transport the material which was classified as a RQ Hazardous Waste, solid, N.O.S., 9, NA3077, III (tetrachloroethylene). The waste was shipped as F002 hazardous waste. There were a total of nine (9) loads shipped.

Reduction Efforts

Because these shipments of hazardous materials were part of on going remedial cleanup activities, no effort were taken to reduce the volume and toxicity of waste generated and no comparison is available for previous years because this is not a regular occurrence for the site.
